WHEELING, W. VA., APRIL 6, 1888 Touch Not. Tinker Not

During the past three years, ivory has risen at least 100 per cent in value, and pearl, which is also largely used in half og cuttery and other goods, has advanced very materially in the same period. Such is the warning note sounded by a large number of the Democratic papers in They realize that tariff for revenue only is a bald phrase, and that as revenue only is a baid phrase, and that as a war cry will not enthuse the people. Besides the South in the last few years has been dotted with industrial and manufacturing concerns that need the help of a and may on their revenue that they were all the while in favor of the match. protective tarill to foster them. The difference of opinion among the leaders of the Democratic party presents a peculiar anomaly, and it is with some curiosity that we look to the next platform promulgated by it. The party itself is considerably mixed on the question, and has within its ranks mean.

the influential Democratic journals warning the Democrates in Congress not to disturb the tariff next winter are the Macon (Ga.) Telegraph, the Washington Post, the Memphis (Tenn.) Avalanche, the Mobile (Als.) Register, and the Charlotte (N. C.) Journal.

On the free trade position of the party the Nashville American says:

"The gentlemen who have undertaken to switch the Democratic party off en the free trade hobby will find that they have undertaken more than they can accomplish. To do it is to say to Democrats engaged in manufacturing. You must abandon your personal interests to the new hobby. Men will not do this. Democrats all over the country are looking to the protection of their property, and the protection of their property, and the protection of their property, and the protection of their laboragainst European pauper labor. These are personal interests, and men will not surrender them. The timely action of the State Senate in relusing to adopt the liadvised free trade resolutions of the House was most fortunate. Tennessee will not be committed to free trade."

And en the tariff for revenue only cry the Charlotte, N. C., Journal has the following striking remarks:

"We repeat that 'a tariff for revenue only' has, right or wrong, acquired a meaning in this country which makes the use of it as a shibboteth by the Democratic party unwise. We are discussing this matter, of course, solely from the standpoint of party policy. We would not juggle with words to deceive the people; but if the Democratic party is not a free trade party—and it is not—and if the use of certain words in their platform has subjected them and will subject them again (and with reason to the popular mind) to the charge of being a free trade party, opposed to protecting the American laborer, where is the wisdom of persisting in the use of those words?"

It will be observed that Mr. Hubbell's countenance retains its natural expression even in death.

Wendell Phillips' wife has been an invalid for over thirty years, and during all this time the great orator has been untiring in his attention to her. "No one but you can know what it has been to care for her," was remarked to him recently. "Ah! No one but me knows how good she is," was his heartsome answer.

Governor Foster, of Ohio, has not been at all well lately, but, with his accustomed good nature, makes light of it. "I am suffering," he said to a reporter, "with chilis and a severe cold; but don't report that, for I had my hair cut yesterday, and the boys would put this and that together, you know, and I would never hear the last of it."
